EDUCATION

Bachelor of Science in Information Technology (BSIT) **2018**
City College of Calamba Calamba City, Laguna, Philippines

WORK EXPERIENCE

Software Engineering Project Lead **April 2025 – Present**
Novare (Formerly MDI Novare) BGC, Metro Manila

- Build and maintain micro frontends using Module Federation, Vite, Webpack, React Query, Express, Zod, Kubernetes, and Jest.
- Develop scalable React components, shared UI libraries, and backend-for-frontend (BFF) API integrations with error, loading, and retry handling.
- Use Claude for AI-assisted development to accelerate implementation, debugging, and documentation.
- Mentor engineers, conduct code reviews, and collaborate with stakeholders to deliver projects on time.

Senior Software Engineer **May 2023 – March 2025**
Novare (Formerly MDI Novare) BGC, Metro Manila

- Integrated, tested, and debugged application solutions across development, test, and production environments.
- Provided recommendations to lead engineers when encountering new issues.
- Collaborated with lead software engineers to improve software development processes.
- Troubleshoot deployment issues and resolved pipeline failures.
- Designed and built applications using ReactJS, Python, and AWS Serverless.

Web Developer **June 2021 – January 2023**
Opo Networks Corporation (formerly Idigital Internet Inc.) Makati, Metro Manila

- Collaborated with front-end developers to seamlessly integrate user-facing elements with server-side logic.
- Developed automated audit reports for company data, ensuring accuracy against third-party service providers.
- Created API systems for web applications in collaboration with other developers.
- Corrected discrepancies in historical data and submitted detailed lists of changes.
- Developed and maintained an internal website for monitoring and updating company-hosted domains and services, using Django and PostgreSQL.

Software Developer **July 2018 – October 2020**
Code Disruptors Inc. Los Baños, Laguna

- Developed web applications using ReactJS, NodeJS, and MySQL in an Agile environment.
- Led frontend team, delegated tasks, managed git push requests, and ensured quality control.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3
Frameworks & Libraries: React.js, Redux, React Query, Node.js, Express.js, Django, Zod, Bootstrap, Socket.IO, WebSocket, Jest
Cloud & DevOps: AWS (Lambda, API Gateway, S3, RDS), Kubernetes, CI/CD, Git, Vite, Webpack
Databases: PostgreSQL, MySQL, DynamoDB
AI-Assisted Development: GitHub Copilot, Claude, DeepSeek

CERTIFICATIONS

AWS Certified Developer - Associate **2024 – 2027**
Amazon Web Services (AWS)
